

## Codes and Standards

Many states and localities have codes and regulations (enforced by AHJ (Authorities Having Jurisdiction)) governing sales, construction, installation and or use of Products for certain purposes, which may vary from those in neighboring areas. While Air Handling Systems by Manufacturers Service Co., Inc. attempts to assure that its Products comply with such codes, it cannot guarantee compliance, and cannot be responsible for how the Product is installed or used. Before purchase and use of a Product, please review the Product application, national & local codes, regulations, and be sure that the Product, installation, and use will be in compliance.

### International Code Council

<http://www.iccsafe.org>

International Mechanical Code®. Establishes minimum regulations for mechanical systems using prescriptive and performance-related provisions.

Section 510 - Hazardous Exhaust Systems

### International Association of Plumbing and Mechanical Officials

<http://www.iapmo.org>

Uniform Mechanical Code (UMC©) represents the most current approaches in the mechanical field.

### NFPA – National Fire Protection Agency

<http://www.nfpa.org>

NFPA 61: Standard for the Prevention of Fires and Dust Explosions in Agricultural and Food Processing Facilities.

NFPA 70: National Electrical Code (NEC) Handbook. Stay competitive and informed with expert NEC® support in the exclusive National Electrical Code® Handbook from NFPA®.

NFPA 484: Standard for Combustible Metals, for advanced fire and explosion safety around combustible metals.

NFPA 654: Standard for the Prevention of Fire and Dust Explosions from the Manufacturing, Processing, and Handling of Combustible Particulate Solids. Reduce the risk of fire and explosion from combustible particulate solids or hybrid mixtures.

NFPA 655: Standard for Prevention of Sulfur Fires and Explosions, Guard against sulfur fires and explosions.

NFPA 664: Standard for the Prevention of Fires and Explosions in Wood Processing and Woodworking Facilities.

Get the latest guidelines for preventing fires in woodworking facilities.

### OSHA - Occupational Safety and Health Administration

<http://www.osha.gov/>

Combustible Dust Standard - In development.
