Combustible Dust: An Explosive Issue

Prone to explosions, combustible dust are a safety hazard. However, this can be prevented by taking the necessary preventive measures.

Combustible dust has become a top safety issue not only in the US and Canada, but worldwide as well....[read more in FDM Asia](#).

Jamison Scott from **Air Handling Systems** authored this piece published in the October Issue of **FDM Asia**.

What our customers say...

"It was such a relief finding a company with knowledgeable people about the product they represent."

Andrew M.
The Witmer Company
New Holland, Pa.

"You can be sure you'll have my business for any future dust collection piping and fittings."

Chris Hall
Azuma Design Build
Leeds, MA

"Less than a half a cup of dust after putting 70 boards through the planer."

Dickie Cline
Cline's Design
Huntsville, AL

Watch manufacturing in action - Multi-tap Manifold

Air Handling Systems Multi-Tap Manifold

Watch the manufacturing process on creating a fully welded, airtight, multi-tap manifold primarily used in dust collection operations.

Outdoor Ductwork

Spiral Pipe, Fittings and Transitions

Outdoor ductwork at Airline Accessory Co.

Airline Accessory Service Co. LLC is a multi-level repair and overhaul airline accessory service repair center with a in house machine shop staffed with certified repairman and mechanics.

Air Handling Systems provided industrial strength ductwork including spiral pipe, fittings and custom transitions for the entire facility both inside and outside. We use G60 and G90 galvanized steel which will last for many years outdoors. We have systems that were installed outdoors over 25 years ago that are still in perfect working condition.
