## INDUSTRIAL STRENGTH Ductwork Direct

October 2013

### Made in Connecticut

[Air Handling Systems](#) has been manufacturing in Connecticut for over six decades and has been an active member of the NHMA (New Haven Manufacturers Association) since 1998. Click video message below to see what John Ratzenberger has to say about NHMA and manufacturing in Connecticut.

NHMA with John Ratzenberger

### Meet Our Staff Military Precision

Every order is expertly reviewed with military precision. Kae Khounsak comes to us with military experience and an eye to detail. Kae has served his country well and we are proud to have his care

and commitment now overseeing many of your orders. Kae started in our shipping department and quickly worked his way through production, and ultimately into our customer service and sales department.

With his working knowledge of each department he skillfully manages many customers' needs and issues on a daily basis from solving dust collection issues to coordinating international orders with our shipping department.

We pride ourselves on expert knowledge in not only dust and fume collection but in ensuring our products are manufacturing with quality and shipped with care. Kae is a key part of this process ensuring your order is handled with military precision.

Kae can be reached at

### Combustible Dust Seminar

Combustible Dust...An Explosive Issue

### New Air Handling Catalog

The **NEW Air Handling Systems** catalog is available.

Combustible Wood Dust Explosion

Combustible dusts are fine particles that present an explosion hazard when suspended in air under certain conditions. But is it not that simple - what actually is combustible dust? How do you prevent not only an explosion but tips to mitigate an impact of a government safety inspection related to combustible dust?

Learn about all this and more at an upcoming Combustible Dust seminar. Next Seminar: December 3rd for The New England Area of the American Society of Safety Engineers (ASSE), 15th Annual Professional Development Conference and Exposition, Warwick, RI: [Click here to register](#)

Interested in In-House Training?

In addition to doing combustible dust seminars for trade organizations and trade shows to health and safety conferences throughout the US and Canada, we have done in-house presentations for companies from a machinery manufacturer in Dallas, TX to a wood furniture facility in Massachusetts. Let Air Handling Systems come to your facility for in-house combustible dust training. Email Jamison Scott at [jscott@airhand.com](mailto:jscott@airhand.com) for more information.

## What makes Air Handling Systems the BEST Choice...
