### Shipping Spiral Pipe

Can you ship me just 3, 10 foot lengths of 6" spiral pipe?

Yes we can, but it is not practical. It is far more reasonable to simply ship 6, 5 foot lengths. Ten foot lengths of spiral pipe must ship via LTL common carrier; i.e., ABF, YRC, Estes, Fedex Freight. It is absolutely critical that the 10 foot lengths are crated for transport. The spiral pipe crates we manufacture are very sturdy and the crating charge is less than cost. The maximum distance the crates can be shipped is Central United States. For Mountain and Pacific time zones, we are able to ship our 5 foot pipe lengths. Our experience tells us, pipe crates just won't make it that distance without the possibility of damage.

### What our customers say...

Each month we receive more and more comments from our customers - here are two from May:

*"The install went well, we put in a Weeke Vantech 512 nested base CNC. I sent this photo of how we used some of your fittings including the custom manifold you made for me."*

Larry Lotter  
Legend Custom Woodworking  
Portland, OR

The real issue is weight of the spiral pipe in the crate. In order to obtain a good shipping rate, a minimum of 300 lbs of pipe is required. This is necessary due to the physical size of the pipe crate. If we are taking up that much space in the trailer, the weight creates a minimum density factor. Otherwise, shipping class and shipping charge will increase substantially. Can we ship 3, 10 foot lengths of spiral pipe to Alabama? Certainly, we can, however the shipping cost will be astronomical! On our web site, [www.airhand.com](http://www.airhand.com), in the technical data section, you can find the weight per foot for spiral pipe. This will enable you to make a determination as to whether it is practical to ship 10 foot pipe lengths.

*"Everything was fine and exactly what I ordered. I am very pleased with the quality and everything was packed well and came to me in great shape. Thank you. It has been a pleasure doing business with you."*

## Summer Hours

Air Handling Systems Summer Hours:  
Monday-Thursday 8 am - 5 pm  
Friday 8 am - 2:30 pm

## Upcoming Events

### IWF 2014

August 20-23 - Make plans now to attend the International Woodworking Fair,

Atlanta, GA. See Air Handling Systems at Booth 5800.

### Combustible Dust Presentations

July 24 - CCAT East Hartford, CT

August 20 - IWF Atlanta, GA

October 8 - Wood Pro Expo, Maryland State Fairground, MD
