

Air Handling Systems Newsletter

keeping your environment clean
March 2010

[New Air Handling Systems Website](#)

Be one of the first to see our new website launched, Tuesday, March 9th www.airhand.com. After 15 years of providing an on-line web presence, we have totally redeveloped a more interactive and educational web site.

This interactive web site gives you a user-friendly interface by combining high quality and interactivity. Valuable [design](#), [installation](#), and [technical information](#) are prevalent throughout the site. Improved online ordering with our [on-line catalog](#) contains virtually the [ENTIRE product line](#).

We would love your feedback, comments or thoughts on the new site, please email sales@airhand.com.
