**INDUSTRIAL STRENGTH
Ductwork Direct**

January 2015

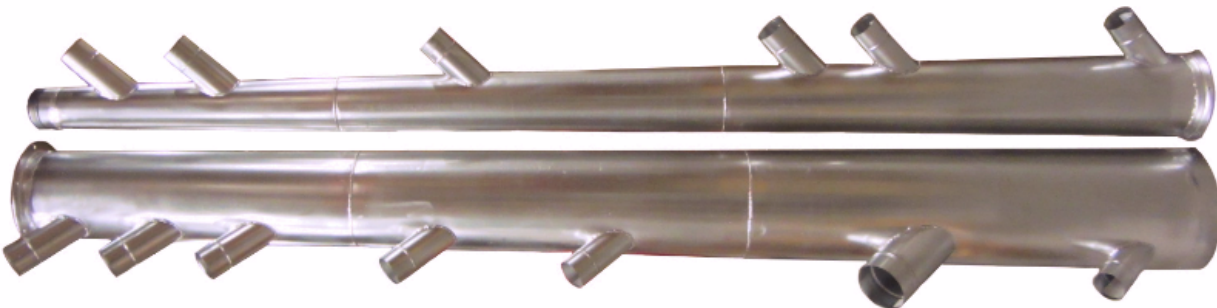

Look at what Air Handling Systems manufactured...

Multi-Tap Manifold (6 taps)
Built for wide belt sander.

Multi-Tap Manifold (7 taps)
Used with an edgebander.

Multi-Tap Manifold (13 taps)
Shipped in two pieces, once connected over 16 feet long.

And how we manufactured it...

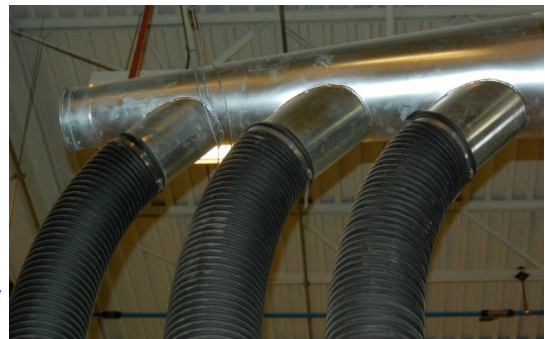

Manifold Manufacturing Process

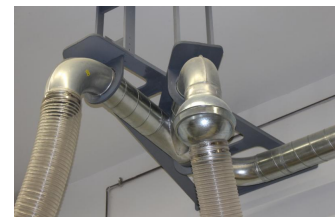

Last week we manufactured a multi-tap manifold 27 feet long with 16 taps, this week one 19 feet long with 14 taps.

...think what we can do for you!

On a daily basis we manufacture **manifolds** for edgebanders and moulders as well as many other types of equipment. Many larger sanders being manufactured today require a similar type of manifold. To receive a quote for a multi-tap manifold simply **download this document**. Provide measurements from small-end (B) to the start of each tap. Email sales@airhand.com or fax 800-438-7135.

Contact Air Handling Systems for all your ducting needs as well as to find the proper **flexible hose** to replace the old damaged, improper, leaking and duct taped hose, so now your hose can function like new with no leaks! Call 800-367-3828 or go to www.airhand.com for more information.
