**INDUSTRIAL STRENGTH
Ductwork Direct
February 2016**

**New for 2016
Clamp Together Ducting
Versatile, Fully Welded,
Heavier Gauge**

Air Handling Systems is announcing the introduction of the **Clamp Together Duct System** to our product line. Air Handling Systems is the only company that provides a full range of ALL types of ductwork to handle all your industrial ventilation needs. Easily connects to your existing system or connect your Clamp Together System to our spiral pipe. The Clamp Together Duct System uses a barrel-type clamp to attach two rolled edges of ducting together. Clamp each piece together without any special tools. Pipe is laser welded, clamp together collars are added to our fully welded, airtight heavier gauge fittings.

**New for 2016
Flexible Hoses**

AHPU60

AHPU60 flexible hose is perfect for those applications that require flexibility, and full vacuum rating. Available in 2 inch, 2.5 inch and 3 inch. Smooth interior design allows for superior flow and maximum efficiency. This flexible hose is commonly used for those applications that require a full vacuum such as CNC suction hold down tables. Other applications include: paper mills, and agriculture including cotton and tobacco picking.
