Unhealthy Air to Clean Air

Here's the story from one of our customers...

Until recently I was using a cloth bag local system. A few months ago I was in the shop a lot preparing for a show and realized how unhealthy the air was. It was cold out so no windows or door to open. That's when I decided I needed to do something! First was to find a powerful HEPA System and then started the duct work layout. I found all the fittings I needed by doing a web search and found Air Handling Systems, I liked how you have the section just for my size of installation.

My order came very fast and I was surprised to find each piece was wrapped in paper for shipping, nice touch. As with most projects I needed to do a bit of redesign and needed a couple more fittings. Everything went together well.

WMMA Past President, Jamison Scott, Wins Baldwin Award

Announcement of the award was made at the Woodworking Industry Conference (WIC), which took place at the Omni Rancho Las Palmas in Rancho Mirage, California.

Chris Hacker, WMMA President with Jamison Scott, past president of the Association.

Scott, who serves as executive vice president of Air Handling Systems, a third generation family-owned business in Woodbridge, Connecticut, has a long history of service to the Association and to the industry as a whole. As a fierce advocate for Connecticut industry, Scott is in constant communication with Washington and Hartford, Ct elected

My system is set for the ports on the band saw and two hoses at the main lathe for sanding dust or when I am turning dry wood. Very pleased with the fittings and the customer service!

Bill Weber

Manchester, MI

representatives on behalf of Air Handling Systems and manufacturers across the state of Connecticut and the nation. In addition he has presented numerous combustible dust seminars throughout North America including trade fairs and conferences such as AWFS, IWF, WMS, NWFA and regularly acts as a technical resource.

Within WMMA, Scott has long been an active volunteer, serving in multiple roles including Membership Development Committee, Public Policy Committee, various task forces and ultimately on the board of directors, where he eventually became a member of the Executive Committee, then treasurer, vice president and eventually president. He is currently the Association's immediate past president.

The Baldwin Award is named for Ralph B. Baldwin, long-time member and past president of WMMA. During his career with Oliver Machinery Company and his involvement with the WMMA, Baldwin exemplified the commitment that makes an Association function at its peak potential. The award recognizes those who have contributed similar levels of involvement.

"As President of the WMMA, it was an honor to present the Baldwin award to one of our most dedicated volunteer members. Jamie has graciously invested many hours over the years to the WMMA. I thought that it was only fitting that the Baldwin Award is a beautiful clock which represents time and time is what our 2017 Award winner has given to the WMMA for almost 18 years." said Chris Hacker, WMMA's President.

Upcoming Events

**AWFS, Las Vegas
JULY 19-22**

2017 AWFS Fair CWWK (College of Woodworking Knowledge) educational seminar program has been set! Jamison Scott, Air Handling Systems will be co-presenting, moderating and presenting:

Air Handling Catalog

2017 Air Handling Systems catalog is now available. To request your free copy please call 800-367-3828 or email sales@airhand.com.

"Dust Collection for Secondary Wood Operations"

Date: Wednesday, 7/19/17

Time: 11:30 a.m. - 1:00 p.m.

"Legislation Affecting the Woodworking Industry"

Date: Wednesday, 7/19/17

Time: 3:30 p.m. - 5:00 p.m.

"Dust Collection for Small Shops"

Date: Thursday, 7/20/17

Time: 9:30 a.m. - 11:00 a.m.

Antistatic Hose Highly Abrasion Resistant U30-AS

U30-AS antistatic, polyurethane, medium-heavy highly abrasion resistant, microbe resistant and flame retardant flexible hose ideal for a variety of applications. Industries/applications include combustible dust, woodworking, abrasive powder, bulk material, offset printing, UV dryer, IR dryer, textile, clean room ventilation. Flame-retardant according to DIN 4102-B1. Permanently antistatic wall: electrical and surface resistance $<109 \Omega$

Standard 25 feet length. \$10 cutting charge for 12.5 feet length.
