INDUSTRIAL STRENGTH  
Ductwork Direct

March 2018

## Price Adjustments

Some Price Reductions, Some Unchanged, Some Increased

Each year we painstakingly review our costs. Some of our most popular items like blast gates will be **reduced -14%** on average. Many items will **remain the same** such as Elbows (3"-14" Die-stamped and 13"+ Gored), U20-AS and U30-AS flexible hose. Other items such as spiral pipe and fittings will be **increased 3%** as well as some flexible hose including U20-T and U30-C. Call for exact product price updates. Price changes effective April 2, 2018.

---

**Installing Spiral Pipe**  
Simple step-by-step directions to cut spiral pipe

We are regularly asked how easy is it to cut spiral pipe. Quite simple, scribe line, drill and cut. See [attached PDF](#) for more information.

### Anti Static Flexible Hose Highly Abrasion Resistant U30-AS

U30-AS antistatic, polyurethane, medium-heavy highly abrasion resistant, microbe resistant and flame retardant flexible hose ideal for a variety of applications including combustible dust, woodworking, abrasive powder, bulk material, and clean room ventilation. Flame-retardant according to DIN 4102-B1. Permanently antistatic wall: electrical and surface resistance  $<109 \Omega$

Standard 25 feet length. \$10 cutting charge for 12.5 feet length.
